'please insert the first cd' gimana tuh!? Command And Conquer Generals Game! File Size:181MB System Requirements! Windows Xp,8,7,Vista Ram: 128MB Video Memory: 32 MB Hard: 1.. Game buatan EA ini memang banyak yang suka, apa lagi versi yang terbaru, namun sayang versi yang terbaru di tunjukan buat pc yang speknya high,jadi saya gak bisa main.. Save the file Either do this before you go into the game from your desktop, or after the EA game video and the start video before you click on solo play, and when you start a game at least one opponent will die almost instaneously.. Ane pake versi origin juga ga ada masalah, win 10 tanpa compatibility ataupun run as admin.. qibsy com Size: 971Mb Kalo tadi saya udah share CNC Generals Kali ini saya mau share Expansion dari CNC Generals, biar mainnya tambah lengkap. 0041d406d9 [Avast Antivirus Free Download For Windows 7](#)
